

Video Audition Round

Thanks for your interest in auditioning for The Capital Hearings! Please complete the following steps to submit an initial video audition package.

You will record a video of yourself singing along to a pre-recorded audition video. This audition video will guide you through a vocal range test and then ask you to sing a solo of your choosing.

For your solo, please prepare a ~1 minute solo of a song in any genre. Please do not use any accompaniment.

How to record your video:

1. Find a quiet space and prepare your video recording device – taking a video on your phone is fine! Make sure you can be seen and heard in the video recording.
2. Set up a second device (such as a laptop or tablet) to play the audition video guide.
3. Click on the proper audition video link: Select either the “[Upper Voices](#)” video (for soprano/alto range) or the “[Lower Voices](#)” video (for tenor/baritone/bass range).
4. When you are ready, begin recording and press play on the audition video.
5. The video will lead you through the audition to:
 1. Introduce yourself
 2. Do vocal range exercises
 3. Sing your solo

Please record these steps in a single, continuous take.

6. When you have finished the audition, stop recording your video.
7. Save the file with your first and last name in the file name.
8. Submit your video via this [Google Form](#).

How to submit your video:

Please submit your video and information about yourself via this [Google Form](#).

Next Steps: We are currently accepting audition videos on a rolling basis. We will follow up with you if we would like to move you forward to the next round of the audition process. If you have any questions at any point in the audition process, please email auditions@thecapitalhearings.com
